

## Things In The Works

- Galleries
  
- New Orleans (Katrina!)
  
- Nashville
- Portfolio(s), etc.
- Maybe a family upload section? (you guys can chime in here, if you like. Flickr.com may be a simpler option...)
- Image of the week. I'll post something I shoot each week, just in case you're interested...
- Complete SEF URL's and full meta SEO (you non-nerds wont care at all).
- AJAX "Shout Box" back on the front page (probably. Everybody seemed to miss this feature when I launched the "4.0" site.)
- Web Design portfolio
- Maybe some games (I'm planning on asteroids, space invaders, etc.)
- Feeds. Lots of fun syndicated content.
- More. Perhaps lots more, depending on how ambitious I get.
